OBJECTIVE

Seeking for the job position that would facilitate development and progress as a professional.

SUMMARY OF QUALIFICATIONS

- **Can work best independently and in a team environment.** During my last job with coreDev Solution Inc. as their Software Developer, I have been given a good evaluation. The evaluator has certified that the applicant is hardworking, patient, manages time very well and exhibits a responsible attitude towards work among other significantly good evaluations.
- **Knowledgeable in programming and technical support for I.T.** The applicant is a graduate of B.S. Information Technology. I have received training in C#, HTML, PHP, SQL, Laravel, CSS, Java, JavaScript, Node.js,, and Code Igniter for web-based programming and also received a networking certificate like CCNA Routing, Internet of thing.
- **Can work with less supervision and executes instructions.** During my last job, the applicant is given instruction to perform and eventually is able to deliver desired outputs as required.
